

# CENTER FOR BIOMEDICAL RESEARCH TRANSPARENCY

## 2020 Biomedical Transparency Summit

Enhancing communication of negative and inconclusive findings across biomedical research.

Many experimental results never see the light of day - particularly when an expected effect is not observed. Negative and inconclusive results in biomedical research have significant value to inform future research designs, funding decisions, and save study participants from avoidable risks.

A rapidly evolving ecosystem of initiatives and tools exists to assist biomedical researchers improve the transparency of their research efforts. Building on the success of the inaugural Biomedical Transparency Summit held in January 2018, the 2020 summit will again bring together leaders from this ecosystem to discuss how the latest in data sharing, pre-prints, science policy, funding oversight, publication models and new technology can enhance research efficiency and clinical outcomes.

### KEYNOTE SPEAKERS

**Dr. Michael Lauer**

Deputy Director Extramural Research, NIH

**Dr. Bette Phimister**

Deputy Editor, New England Journal of Medicine

**Dr. David Mellor**

Director of Policy Initiatives, Center for Open Science

**Dr. Sandra Petty**

CEO, Center for Biomedical Research Transparency

**Mr. Todd Toler**

VP Digital Product Management, Wiley

**Dr. Anna Hatch**

DORA Community Manager (American Society for Cell Biology)

**Dr. Harold Sox**

Program Director of Peer Review, Patient-Centered Outcomes Research Institute

**Dr. Ida Sim**

Professor of Medicine, UCSF

**Dr. Howard Bauchner**

Editor in Chief, JAMA

**Dr. Carolyn Shore**

Director, Forum on Drug Discovery, Development, and Translation, National Academy of Sciences

### WHO SHOULD ATTEND?

**Transparency Leaders** - working on initiatives relating to publication of negative results, pre-publication, data sharing, health research & biomedical science policy.

**Funders** - that support biomedical and health policy research and are interested in reducing waste in biomedical research.

**Research Institutions and Consortia** - that want to be involved in the evolution of research reporting and publication.

24th January 2020  
National Academy of Sciences,  
Washington, DC

Attendance at this free event is by invitation only. To inquire about participation, contact: [sarah@cbmrt.org](mailto:sarah@cbmrt.org)

**BMTS  
2020**

**CBMRT**
